WELCOME MESSAGE

From
PRESIDENT ASSI

DR. SAUMYAJIT BASU

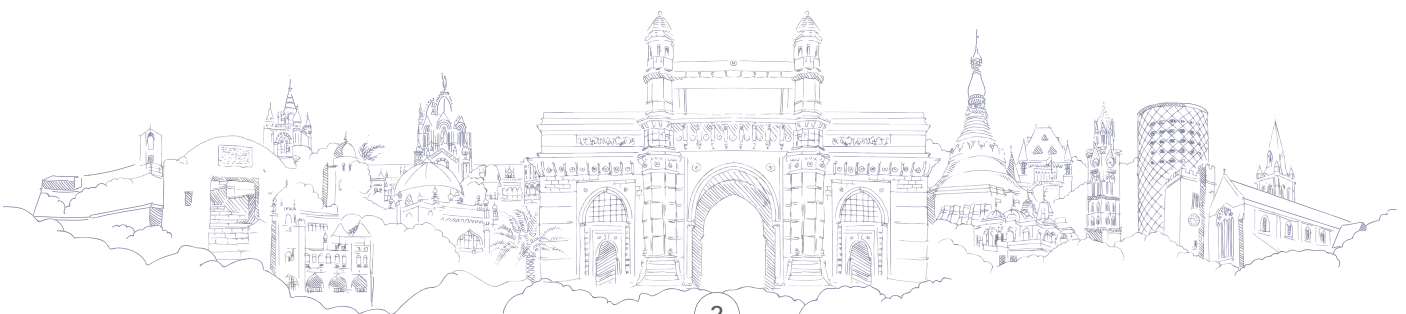

PRESIDENT ASSI

Dear friends,

I am proudly privileged and distinctly honoured to welcome you all for the flagship annual event of our august body - ASSICON 2024. This is an ideal platform to enrich ourselves with academic upliftment and at the same time it is a great opportunity for networking and enjoying the fun and frolic of this fantastic city of Mumbai. The program has been immaculately planned to include all aspects of spine surgery and I assure you that it has something for everyone. The hospitality would be inspiring, and you would soak yourself in the best of deliberations from the doyens of spine surgery across the globe.

Mumbai is the citadel of spine surgery and has churned out the maximum number of full-time spine surgeons in our country and undoubtedly has been a pioneer in the evolution of ASSI to its current stature of international repute. The city throbs with the splendour of stalwarts and breathes with the best of Marathi culture and glory. Hence, ASSICON 2024, Mumbai would guarantee you an unforgettable experience. Looking forwards to meeting you on 18th to 20th January 2024. Come one and come all!

WELCOME MESSAGE

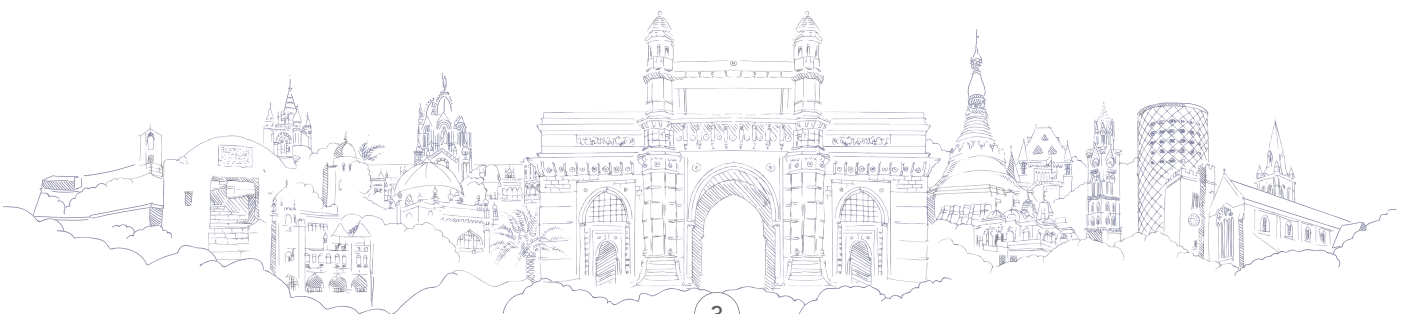

From
SECRETARY, ASSI

DR. RUPINDER CHAHAL
SECRETARY, ASSI

On the behalf of ASSI, I congratulate the Bombay Spine Society, the organisers of ASSICON 2024, Mumbai for planning an excellent academic and social program spread over 3 days, with 8 ICLs, 5 cadaveric workshops and 10 saw bone & lab workshops. It's not an easy task to put who's who of world spine and all National spine faculty at one place. I request all the young spine enthusiasts to participate in large numbers and promise there's much to take home from this great event. I am sure the organizing team will out do its expectations and we would all go back home with sweet memories. ALL the BEST!!!

WELCOME MESSAGE

From
ORGANIZING CHAIRMAN

DR. KETAN BADANI

ORGANIZING CHAIRMAN

PRESIDENT - BOMBAY SPINE SOCIETY

ASSICON, where the learning never stops; Mumbai, a hub of academics and a combination ASSICON2024 @MUMBAI. One can only imagine the prowess of this combination which is going to unfold as ASSICON 2024 at Mumbai. ASSICON 2024 is planned and envisaged to be much more than academics in addition to didactic lectures, symposia, panel discussions and scientific papers. ASSICON 2024 shall have the boot camp for the beginners, interactive case discussions, cadaveric workshops, saw bone workshops, surgical videos and plenty of other unique and innovative learning experiences which you will have to be present to behold. The best of national and international faculty has been invited to make the academic experience most satisfactory and the learning state of the art.

In addition to academics there will be a large display of industry exhibits to enable you to appreciate the advances in technology that goes hand in hand with clinical progress. Do not live in the fear of missing out. If there is one conference not worth missing, it is ASSICON 2024.

Register at the earliest and join the mega learning feast in Spine Surgery. We welcome you all on behalf of Bombay Spine Society to the mega event in Mumbai

ORGANIZING CO-CHAIRMAN

DR. S. K. SRIVASTAVA

ORGANIZING CO-CHAIRMAN ASSICON 2024

IMMEDIATE PAST PRESIDENT OF BSS

PRESIDENT ELECT ASSI

Dear Friends and Colleagues

It gives me immense pleasure to invite all of you to ASSICON 2024 which will be held in the vibrant city of Mumbai from 18th January to 21st January 2024. The Bombay Spine Society is excited and all set to host this mega academic event of the country. Association of Spine Surgeons of India is at the zenith of its academic success and brilliant performance in different facets of its ongoing growth. Even before the slated main conference comes up, the academic marathon on virtual platform has started.... The MASTERS MAKE MASTERS and ASSICON GLOBAL OUTREACH PROGRAMME are just a starter in the huge academic menu.

The hallmark of ASSICON 2024 is going to be an extremely rich academic quality, maximum number of different spine societies participation and galaxy of international and national faculties presence.

You will have to believe me that you will witness the best academics, the best interaction and the best hospitalities with pleasant taste and fun during ASSICON 2024.

Please do join us and grace the meeting.

With best wishes

Yours sincerely

WELCOME MESSAGE

From
SCIENTIFIC CHAIRMAN

DR. GAUTAM ZAVERI SCIENTIFIC CHAIR - ASSICON 2024

Dear Colleagues,

On behalf of the organizing team, it gives me great pleasure to welcome delegates from India and from across the globe to the grand scientific extravaganza at ASSICON 2024, Mumbai.

The program committee has made every effort to cater to the academic needs of delegates at various stages of their journey in the rapidly evolving field of spine surgery. From ASSI Global Outreach Sessions involving premier spine societies from across the globe on an OTT platform, to the famous Mumbai style "Hands-on-cadaver" workshops, to Boot camps for young spine surgeons, lunch workshops, skill development sessions, ReLIVE videos of various spine surgeries, ASSICON 2024 has it all. Last but not the least, is a fabulous scientific program within the main conference, the highlight of which is a Joint session with SMISS (Society for Minimally Invasive Spine Surgeons) and KOMISS (Korean Organisation of minimal invasive Spine Surgeons) on various aspects of spine surgery.

A galaxy of International and Indian Spine experts will be there to share their knowledge and experience with you. All this coupled with the warm hospitality of the Bombay Spine Society and Mumbai style dhamaal makes ASSICON 2024 the hottest event on the spine calendar - A NOT TO BE MISSED EVENT!!!

Welcome to ASSICON 2024.

DEGENERATIVE LUMBAR SPONDYLOLISTHESIS

Chairmen: **Dr. H. S. Chhabra, Dr. Mukund Gundanna, Dr. Sheetal Mohite, Dr. Sanjay Yadav**

13.30 - 14.05

Research Papers (4 mins each)

13.30 - 13.34

Clinico-radiological Grading System of Adjacent Segment degeneration after Posterior Lumbar Fusion: **Dr. Bharat Patel**

13.34 - 13.38

Does Degree of Disc Degeneration Correlate with Severity of Axial Low Back Pain and Loss of Function in Young - A Pilot Study in Military Soldiers:
Dr. Vyom Sharma

13.38 - 13.42

En-Bloc Laminectomy for Multilevel Lumbar Fusions - Is it Safe?:
Dr. Alok Moogali

13.42 - 13.46

Does the presence of Developmental canal stenosis impact outcome in patients with Degenerative Canal stenosis treated with Decompression alone? A Prospective Study: **Dr. Rahul Jaiswal**

13.46 - 13.50

Midterm outcome of unilateral versus bilateral transforaminal lumbar interbody fusion in lumbar degenerative disorders - An analysis of 1098 cases:
Dr. Vigneshwara Badikillaya

13.50 - 13.55

Do the patients after the robotic transforaminal lumbar interbody fusion (MIS TLIF) fair better than traditional transforaminal lumbar interbody fusion surgery a single centre prospective study: **Dr. B. Harith Reddy**

13.55 - 14.05

Discussions

14.05 - 14.35

Invited talks (6 mins each)

14.05 - 14.11

Evolving Management perspectives - What's In & What's Out: **Dr. Amol Rege**

14.12 - 14.18

TLIF or PLF for Degenerative Spondylolisthesis - Does it matter!:
Dr. Appaji Krishnan

14.19 - 14.25

Enhancing Spinal Fusion - Bone substitutes / Ceramics / Growth factors:
Dr. Rishi Kanna

Dr. Prashant Kekre, Dr. G. D. Tharadara**

14.40 - 15.15

Research Papers

14.40 - 14.44

Correlation of osteoporosis with Adult Spinal Deformity (ASD) - Does it predict curve progression?: **Dr. Mitul Jain**

14.44 - 14.48

Is proximal triangular fixation better than convention method for adult spinal deformity?: **Dr. Umesh Meena**

14.48 - 14.52

Prospective observational study to evaluate the efficacy of sub-laminar wires in preventing proximal junctional kyphosis in long segment dorsal / lumbar fixations: **Dr. Piyush Gadegone**

14.56 - 15.00

Short segment vs long segment fusion in adult degenerative scoliosis:
Dr. Harsh Balkrishna Kotecha

15.00 - 15.04

Functional outcomes of long segment lumbar decompression in multi-level lumbar canal stenosis - A single centre retrospective analysis:
Dr. Tausif Ahmed Aslam Shikalgar

15.04 - 15.14

Discussions

15.15 - 15.45

Interactive Case Based Panel discussion

15.45 - 16.15

Research Papers

15.45 - 15.49

Fusion and correction of lordosis following PLIF in High Grade Spondylolisthesis - A long term retrospective review in 250 patients:
Dr. Md. Anowarul Islam

15.49 - 15.53

Does the use of monoaxial pedicle screws in caudal vertebra make a difference in management of lumbar spondylolisthesis? A propensity-matched study:
Dr. Yogesh Pithwa

15.53 - 15.57

Awake spinal fusion - A retrospective analysis of minimal invasive single level transforaminal lumbar interbody fusion done under spinal anaesthesia in 150 cases: **Dr. Ameya Rangnekar**

15.57 - 16.01

A prospective study to assess the radiological and functional outcomes in patients of High-grade spondylolisthesis operated with Minimally invasive - Transforaminal lumbar interbody fusion: **Dr. Yogin Upenakumar Patel**

16.01 - 16.05

Delayed presentation of cauda equina syndrome in low socio-economic group - A study on the reasons and outcomes: **Dr. Tushar Kunder**

16.05 - 16.09

Efficiency of Spinal Anesthesia versus General Anesthesia for Minimal Invasive Single Level Transforaminal Lumbar Interbody Fusion - A retrospective analysis of 178 patients: **Dr. Mani K. Anand**

16.09 - 16.18

Discussions

16.20 - 16.50

Invited talks

16.20 - 16.26

Spinopelvic parameters in HGS - Importance in surgical planning:
Dr. Samir Dalvie

16.27 - 16.33

Reduction Technique in HGS - Tips and Tricks: **Dr. Rajat Verma**

16.34 - 16.40

Long term outcomes for IN situ fixations for HGS: **Dr. Raghuprasad Verma**

1. What do we expect prior to surgery, during surgery and after surgery
 - Surgeons perspective
 - Anaesthetic perspective
2. Anaesthesia considerations during spine surgery - Positioning perspectives for better perioperative outcome.
3. Anaesthesia considerations during geriatric spine surgery - optimisation and risk mitigation.
4. Anaesthesia for scoliosis / kyphosis surgery with/without neuromonitoring - Pros and cons.
5. Hypotensive anaesthesia - Myths and facts - what's the reality?
6. Awake spine surgery - When, why & how?
7. Pain management post op - How much is safe how much is enough.
8. Case discussions (to be presented by young surgeons and to be discussed by panel of surgeon / anaesthetist)
 - Bleeding during surgery
 - Blindness post-surgery

08:55 - 09:00

WELCOME ADDRESS

09:00 - 09:50

LUMBAR SPINE 1

09:00 - 09:20

Technique of lumbar Pedicle Screw Insertion

09:20 - 09:40

Technique of Sacral Screw Insertion

09:40 - 09:50

Discussion

09:50 - 10:40

LUMBAR SPINE 2

09:50 - 10:10

How to do Lumbar Discectomy / Microdiscectomy

10:10 - 10:30

How to do Lumbar Interbody Fusion

10:30 - 10:40

Discussion

10:40 - 11:30

DORSAL SPINE

10:40 - 11:00

How to put Thoracic pedicle screws

11:00 - 11:20

How to do Transpedicular decompression

11:20 - 11:30

Discussion

11:30 - 12:40

CERVICAL SPINE

11:30 - 11:50

Technique of Lateral Mass Screw insertion

11:50 - 12:10

How to do Cervical Laminoplasty / Laminectomy

12:10 - 12:30

Anterior Cervical Discectomy / Corpectomy
